

## CASE STUDY

# Ransomware attacks interrupt operations and stop work

**Ransomware** infected the main server

**Clean-up process** took two days and stopped one division from doing business

**Malwarebytes** fits right into the IT environment

## Challenges

- **Ransomware got past** their old AV
- **Infection** reached a main server and interrupted operations
- **Two days** were spent re-imaging servers and prevented a division from doing business

## Reasons for Choosing Malwarebytes

- **Layered protection:** Malwarebytes uses multiple layers to address advanced threats with different attack vectors
- **Cloud-based:** The Endpoint Protection solution keeps all systems safe under a single cloud.
- **Flexible:** Malwarebytes functions well alongside their other antivirus solution.

## How Malwarebytes Solved the Problem

- **Stops** ransomware infections
- **Prevents infections** from malicious websites
- **Simplifies** endpoint protection deployment and management
- **Runs smoothly** without affecting users

## OVERVIEW

### CUSTOMER

#### La Sentinelle

Mauritius (an island nation in East Africa)

### INDUSTRY

Media

### IT ENVIRONMENT

Symantec antivirus, layered enterprise security

### SOLUTION

Malwarebytes Endpoint Protection

Malwarebytes Endpoint Protection caught the ransomware that Symantec missed. It's the best solution because it's easy to use and manage, and it covers our Macs.
