Malwarebytes

CASE STUDY

"Malwarebytes gives us the strong protection we need to stay secure."

Inundated with ransomware attacks

Legacy products ineffective

Eliminated malware disruptions

Challenges

- **Malware attacks** were focused on financial gain
- **Multiple attacks** were coming in the form of ransomware
- **Weak protection** from current products
- **IT teams were spending time manually searching** for malware on devices

Reasons for Choosing Malwarebytes

- **Support team:** The Malwarebytes Premium Support subscription allows the IT team better access to Malwarebytes resources.
- **Guaranteed protection:** Teams rely on Malwarebytes to catch dangerous malware that was missed by other AV systems, like McAfee.
- **User-friendly:** Malwarebytes has an intuitive set up that allows IT to see and track their systems with the click of a button.

How Malwarebytes Solved the Problem

- **Significantly reduced risk** of malware and ransomware infections
- **Simplified malware** detection and response
- **Eliminated malware-related disruptions** for users
