

CASE STUDY

Cloud-based environment now vulnerable to cyber-attacks

Several endpoints affected my infected malware

Kaspersky was letting in threats

Gained visibility into all endpoints

Challenges

- **Cyberattacks increased** once they moved to a cloud-based environment
- **Phishing and malware attacks** resulted in several endpoints being infected
- **Kaspersky solution** was missing threats

Reasons for Choosing Malwarebytes

- **Ability to protect:** Malwarebytes found thousands of threats on endpoints right away.
- **Easy deployment:** The single-agent architecture deployed with ease on all endpoints.
- **Visibility:** From the cloud console, teams could see into all systems, regardless of where they were located.

How Malwarebytes Solved the Problem

- **Detects and eliminates** thousands of threats that other solutions miss
- **Delivers visibility** into entire installed base of endpoints, regardless of location
- **Saves time** and accelerates response via the cloud console
- **Prevents PUPs** from gaining entry

OVERVIEW

CUSTOMER

Fayolle

Paris, France

800 employees across 10 production facilities and dozens of remote sites

INDUSTRY

Construction

IT ENVIRONMENT

Kaspersky antivirus, layered enterprise security

SOLUTION

Malwarebytes Endpoint Protection

Malwarebytes provides the proactive protection we wanted. It makes effective endpoint security so much easier. We're very satisfied and recommend Malwarebytes to all companies.
