

## CASE STUDY

# Enterprise in need of stronger AV

**Needed an AV system** that protects against advanced malware and ransomware

**Team members** can easily deploy without the help of IT

**Email alerts** provide real time updates

## Challenges

- **Wanted high-level** layered security
- **Old AV system** didn't protect enough against advanced malware and ransomware
- **Solution** had to be enterprise-class

## Reasons for Choosing Malwarebytes

- **Easy deployment:** Deployment was so simple on their Windows clients and servers that licenses were filled up almost immediately.
- **Efficient:** Almost anyone can set up and deploy Malwarebytes, so the IT team can focus on other projects.
- **Real time alerts:** Malwarebytes sends out email alerts so teams know if a system is added or needs to be looked at.
- **Valued relationships:** JusticeTrax feels like they are treated as a valued customer and the Malwarebytes team wants to make sure they have a positive experience.

## How Malwarebytes Solved the Problem

- **Simplifies endpoint protection** without sacrificing flexibility or control
- **Eliminates malware** that other solutions miss
- **Gains flexibility** to instantly protect temporary virtual systems
- **Achieves confidence** in advanced protection that evolves in

## OVERVIEW

### CUSTOMER

#### JusticeTrax

Serves crime labs in North America, Australia, the Caribbean, and the Middle East

### INDUSTRY

Software

### IT ENVIRONMENT

Enterprise-class layered security

### SOLUTION

Malwarebytes Endpoint Protection

We needed the power and flexibility of an enterprise-class solution without needing an enterprise size team to manage it.
